## Introduction to RoGo

Welcome RoGo Readers! We have just rolled out our first Magazine! What? What is RoGo Magazine you ask?

Think of RoGo as your handy little friend who will tell you what's happening, and when, around the world of ROBLOXia. RoGo will be rolling out new issues every 2 weeks, or whenever we feel a new update is needed.

These unplanned issues come out when something big is happening, and we think we should give you more information about it. We call this type of issue, Breaking News Edition. This weeks edition will consist of information on new updates, scripting help, and more! I guess you will just have to read to find out!

# Meet the Staff

## Lion2323 - President

Hello! I'm Lion2323, President of RoGo Magazine. I created the giver and tool that allows you to read the newest issue of RoGo. I love to script and build on ROBLOX, especially for my group, Emerald. Feel free to insert a RoGo Magazine Giver to your place to give your players an update on ROBLOX and enjoyable entertainment!

## ScoutyWouty - Head Journalist

Hello. I am scoutywouty, Vice President of RoGo Magazine. I tend to work very hard on my input in RoGo Magazine. I mostly write for RoGo. Most of my posts tend to be very detailed. Trust me, if I could write all of RoGo, I would. I look forward to you guys reading my posts! I'm also in charge of getting people to interview on Twitter. Please follow @ScoutywoutyTheEpic and tweet me if you wish to be interviewed. (Famous people or admins only.)

## Tiger12289 - Lead Designer

Hello. I'm Tiger12289, Vice President and Lead Designer of RoGo Magazine. I'm currently working on logos for future Editions. I'm a pretty good scripter. I script mostly for my games. I'm also a fan of Epic Ducks. I write a lot in the catalog review section. If you have any questions or problems with RoGo, message me. I can help.

## Spongebobworldonline- Head Scripter

Hello! I'm Spongebobworldonline, Vice President of RoGo. I do the scripting section and teach ROBLOXians how to script amazing things!

## JewelyCat - Developer

Ohai, I'm jewelycat. I am also a Vice President of the RoGo Magazine. I am a very good scripter on ROBLOX and I have made good games. If you want me to sell you my Darkheart for less than my price, I won't. Also, MyHandlsADolphin looks kind of sketchy wearing no pants...

## MyHandlsADolphin - Head of Advertising

Hello, I am MyHandlsADolphin. I am a Vice President of RoGo Magazine. I am not a work junkie so don't ask me to do things for you. I like to sit on the computer all day. I like writing stupid descriptions about myself. :D I also write for this awesome magazine.

**This page will feature all the new members working for RoGo. Remember to give them a warm welcoming.**

## Catalog - Gear Reviews

### 8-Ball Headphones 888 Robux

As the description of this item says; "You just won the game." This amazing hat was created by yours truly, scoutywouty. Published by Roblox, it's hard to believe that these amazing headphones are not limited.

-Scoutywouty

### The Tormentor's Axe 2,000 Robux

Not only does this sword look cool, it's also deadly. It can kill a enemy in three hits isn't the only thing this can do. Hit E and it turns into a drill. Hit Q and jump. You will be higher than any Robloxian in the entire map.

-Tiger12289

### Staff of Shifting Polarity 1,000 Robux

Get too close to someone with this staff. One click of a mouse and you will be flying towards the nearest object. If that doesn't kill you, getting smacked with a stick isn't too pretty either.

-Spongebobworldonline

### Ne'Kotikoz Phaser 800 Robux

Don't think it's funny when someone pulls out this gun. One shot in the torso and you will respawn. This is a powerful weapon. It's surprising that people are selling it at the original price. It's worth double.

-Lion2323

### Ne'Kotikoz Incarnate 525 Robux

No only is this little doll adorable, it is also your best friend. Switch places with it, shoot fireballs, and you will be one unstoppable machine. A great gift for young children.

-Tiger12289

**This will NOT be updated every Friday when gears come out. It will remain the same until Sunday, when the whole magazine is updated.**

# ROBLOX UPDATES

ROBLOX has released the Terrain Generator Demo on Game-Test. Instead of the new parts that we all expected, they released a bunch of parts in a model to make a brick. So, a big let down there. I expect them to actually make new parts before they release it on normal ROBLOX. But, there are so many bricks, its over all very surprising that I experienced no lag. Also released not too long ago, is FloorWires. FloorWires are basically a scriptable line that carries a bill board gui from block to block, and back. I'm not sure exactly how useful it is, but I'm sure somebody will come up with something creative to use them for. For more information about FloorWires, see the Scripting Help page in RoGo Magazine.

Hello! this is where I teach you, scripts, there will be a different script each week!

This week we will be talking about: FloorWires

To know what a FloorWire is, check the ROBLOX Updates page in RoGo Magazine.

Here's how to add it to a player and object: First add the FloorWire to an object. Then add a script inside the FloorWire.

Put this in a script:

```
script.Parent.To = game.Workspace.PLAYERNAME.Torso  
script.Parent.From = script.Parent
```

You can even add a image that travels from the object to your torso.

```
script.Parent.Texture = "http://www.roblox.com/asset/?id=IMAGEID"  
script.Parent.Velocity = 3  
script.Parent.Color = BrickColor.new("Bright blue")
```

Change 3 to the speed you want the image to travel the Brick to the torso.

There you go! :D In 2 weeks, we will be showing: Loops.

Advanced: Try changing the WireRadius, what is that? It's the size of the wire. If you change it to "1" it will be HUGE! Keep it as "0.625" for best results.

## Place Reviews

**Survive The 90 Disasters!**

By: TheFurryFox

8.6 Million Visits

Rating: 4/5

Review By: Spongebobworldonline

In this game, you have to survive the 90 Disasters, obviously. As simple as that sounds, its not. Each disaster is challenging for all players! With different and unique disasters. Also features a shop to buy items with your points you earn for each disaster you survive! Some of the disasters are funny, scary, and epic! Such as: wave, in this disaster A HUGE wave hits the map leaves destruction in its path!

**Legacy II RPG**

By: NINJAKID09

795k Visits

Rating: 4.5/5

Review By: Lion2323

Unlike most RPG games, this game has a well made advanced GUI system. It allows the user to customize their character to add armour, hats, capes, etc. It even allows them to choose which stat they would like to increase on after each level gained.

NINJAKID also added his own version of ROBLOX NPC Dialog using GUIs. This gives more options to the characters of the game like quests, selling/buying items, or just chatting. Even though its still in beta testing, this is a well scripted and planned game.

**Disaster Hotel**

By: Radioaktiivinen

963k Visits

Rating: 4/5

Review By: Tiger12289

It's pretty sad how this game got so many copiers. I managed to find the original. This game is like most disaster games. It starts with a person calling his, "Noob friends" and that they will come on a boat. After that, the noobs manage to catch the hotel on fire and a series of disaster events accure. If you survive that, a nuke explodes and kills almost everyone left. This game have been around for more than a year and it's amazing it's still popular.

## Interview: BMJ44

*What are you most known for?*

Nintendo Minigames.

*What is your favorite thing to do on ROBLOX?*

I like to make things. That's basically what ROBLOX is for.

*What is your favorite game on ROBLOX?*

I would have to say... Person299's Minigames.

*What is your favorite hat?*

The Ice Crown. I've always liked the ugly bucket though.

*What is your favorite gear?*

Sword Cane.

*What inspires you to build/script?*

I've always wanted to be noticed on ROBLOX. I also liked minigames.

*Do you plan on reading RoGo every week?*

Maybe.

*Do you have anything else to say to the readers of RoGo?*

Yeah, don't be Jaredvaldez2.

(Different picture than in magazine)
